

Dr Oosthuizen is 'n navorsingsgenoot in die Departement Dierkunde en Entomologie in die Fakulteit Natuur- en Landbouwetenskappe. Sy het in 2007 gepromoveer met 'n PhD van die Universiteit van Pretoria en het daarna 'n eenjarige nadoktorale posisie aan die Universiteit beklee om die publikasies wat uit die PhD voortgespruit het, te skryf. In 2009 en 2010 is sy aangestel in 'n postdoktorale posisie wat gekoppel is aan die SARChI-leerstoel vir Soogdiergedragsekologie en -fisiologie wat deur prof Nigel Bennet beklee word.

Sy is sedert 2003 reeds mede-outeur van talle artikels in portuurbeoordeelde publikasies. Haar mees onlangs gepubliseerde artikel is 'The daily cycles of locomotor activity of the eastern rock elephant shrew (*Elephantulus myurus*) from South Africa' in die *Journal of Zoology* (tans ter perse: 02-03). Dr Oosthuizen het 'n NNS-gradering van Y1.

---

Dr Oosthuizen is a Research Fellow in the Department of Zoology and Entomology in the Faculty of Natural and Agricultural Sciences. She obtained a PhD in 2007 at the University of Pretoria and has subsequently held a one-year University postdoctoral position to write up all publications arising from the PhD. In 2009 and 2010 she held a postdoctoral position generated by the SARChI Chair of Mammalian Behavioural Ecology and Physiology, held by Prof Nigel Bennett.

She has co-authored numerous articles published in peer-reviewed publications since 2003. The most recent article to be published is entitled "The daily cycles of locomotor activity of the eastern rock elephant shrew (*Elephantulus myurus*) from South Africa" in the *Journal of Zoology* (in press: 02-03). Dr Oosthuizen received a Y1 NRF-rating.
