

CONSTRUCTION AWARDS FOR MARION ISLAND RESEARCH BASE

The new research base on Marion Island, which was designed by Outsite, a collaboration between architect Helga Raath, part-time lecturer in Construction in the University of Pretoria's Department of Architecture, and engineer Hennie Stassen, received three specialist awards in 2006. The company was the overall winner of the Eskom Hot Dip Galvanising Awards 2006. It also received a project merit award in the Stainless Steel Awards 2006, hosted by South African Stainless Steel Development Association (SASSDA), and won the Innovation category in the Steel Awards 2006, hosted by the South African Institute of Steel Construction (SAISC).
