

# Avoid long queues and register online in 2014.

From **2014** students will be able to register online. Specific days will be allocated to specific groups of students to register. A telephonic **Registration Help Service** will be available on the scheduled days.

Visit the **Student Portal** for more information about **Online Registration** or to view the instruction video.

Follow these simple steps before attempting Online Registration:

## Step 1

Login to the **Student Centre** link to establish whether you have any holds on your record. If so, rectify them by following the registration instructions in the Student Portal.

## Step 2

Check the Academic Advisement and Registration Schedules to see if and when you must register online. Register in the **laboratories** according to the required Schedule if your study programme is not available for Online Registration.

## Step 3

After completing Step 1 and 2 and you have established that you may register online, go to the **Student Centre** link and register.
