

University of Pretoria Yearbook 2025

Bachelor of Veterinary Nursing [BVetNurs] (08130006)

Department Veterinary Science Dean's Office

Minimum duration of study 3 years

Total credits 388

NQF level 07

Programme information

This programme is accredited with the South African Veterinary Council (SAVC).

Each student must apply immediately after registration at UP to the Registrar of the South African Veterinary Council for registration as a student in Veterinary Nursing. Registration is compulsory and must be renewed annually for the duration of the study.

After the degree has been conferred, graduates are required to register with the South African Veterinary Council as veterinary nurses before they may practise in South Africa in this capacity.

Also refer to General Academic Regulations G1-G15.

Admission requirements

Important information for all prospective students for 2025

The admission requirements below apply to all who apply for admission to the University of Pretoria with a **National Senior Certificate (NSC)** and **Independent Examination Board (IEB)** qualifications. [Click here for this Faculty Brochure.](#)

Enquiries: [click here](#)

Minimum requirements			
Achievement level			
English Home Language or English First Additional Language	Mathematics	Physical Sciences or Life Sciences	APS
NSC/IEB	NSC/IEB	NSC/IEB	
4	4	4	28

For advice on a second-choice programme for Bachelor of Veterinary Nursing, please consult a Student Advisor. To make an appointment, send an email to carol.bosch@up.ac.za.

Applicants currently in Grade 12 must apply with their final Grade 11 (or equivalent) results.
Applicants who have completed Grade 12 must apply with their final NSC or equivalent qualification results.
Please note that meeting the minimum academic requirements does not guarantee admission.
Successful candidates will be notified once admitted or conditionally admitted.
Applicants should check their application status regularly on the UP Student Portal at [click here](#).

Applicants with qualifications other than the abovementioned should refer to the International undergraduate prospectus 2025: Applicants with a school leaving certificate not issued by Umalusi (South Africa), available at [click here](#).

International Students: [Click here](#)

Transferring students

A transferring student is a student who, at the time of applying at the University of Pretoria (UP) is/was a registered student at another tertiary institution. A transferring student will be considered for admission based on NSC or equivalent qualification and previous academic performance. Students who have been dismissed from other institutions due to poor academic performance will not be considered for admission to UP.

Closing dates: Same as above

Returning students

A returning student is a student who, at the time of application for a degree programme is/was a registered student at UP, and wants to transfer to another degree at UP. A returning student will be considered for admission based on NSC or equivalent qualification and previous academic performance.

- Students who have been excluded/dismissed from a faculty due to poor academic performance may be considered for admission to another programme at UP, as per faculty-specific requirements.
- Only ONE transfer between UP faculties and TWO transfers within a faculty will be allowed.
- Admission of returning students will always depend on the faculty concerned and the availability of space in the programmes for which they apply.

Closing date for applications from returning students is the same as the above

Note: Any deliberate omission of information, or any false information provided by an applicant in his/her application or on the Veterinary Nursing Value-added Form (VNVAF) may result in the immediate cancellation of the application, admission or registration.

Examinations and pass requirements

Refer to UP General Academic Regulations and General Student Rules

- i. All modules of this programme are compulsory.
- ii. Attendance of all lectures, practical, and clinic duties is compulsory. Any form of absence must be justified by submission of a medical certificate or valid documentation, within 3 working days after returning. Failure to comply may result in examination refusal.
- iii. No minimum semester/year mark is required for admission to the examination.
- iv. The semester/year marks and examination mark will count 50% each towards the final mark. Only semester/year, examination and final marks are to be rounded. No condonement of marks will be allowed.
- v. A student is required to obtain a subminimum of 40% in the examination as well as a final mark of at least 50% to pass a module. A subminimum of 40% in subdivisions of theoretical and/or practical examinations

may be required as stipulated by the Dean in consultation with the relevant head of department, and as set out in the study guide.

- vi. A student must pass all the modules of the respective previous year of study in order to be promoted to the subsequent year of study.
- vii. A second- or final-year student who fails a module or modules in a year of study, has to repeat all the modules for that particular year of study, except modules which were passed with a final mark of at least 65%, for which full exemption is granted.

During the repeat year, exemption from the examination is granted for a module that was passed in the previous year if at least 80% of the practical periods were attended and a year/semester mark of at least 50% was obtained. This applies to modules where full exemption is not granted (because the final mark in the previous year was less than 65%).

Examinations are compulsory in all the modules previously failed, as well as in those modules in which exemption from the examination has not been obtained. If a student fails any of these examinations (or supplementary examination), he or she will be excluded from the programme and will not be permitted to continue.

- viii. The content, format and duration of the supplementary, extraordinary, and/or special examination will be similar to that of the examination, except for oral examinations, where the supplementary, extraordinary, and/or special examination may be in a different format.
- ix. Students who have obtained a semester/year mark of 65% or more in a particular module may be promoted according to UP's General Academic Regulations. Departments will be allowed to use discretion in this regard. The rule will be stated in the study guide of the respected module.
- x. Examinations are conducted as stipulated in the Faculty Calendar.
- xi. A student will be allowed to repeat a particular year of study only once.

Practical/clinical/internship information

Proof of satisfactory completion of all prescribed clinical and practical components of the programme must be submitted to the Head: Student Administration of the Faculty.

Pass with distinction

The BVetNurs is conferred with distinction on a student who meets the following conditions:

- completes the degree in three years, and
- obtains a cumulative weighted average of at least 75% over the second and third years of study (the cumulative weighted average will not be rounded up to a whole number).

Curriculum: Year 1

Minimum credits: 120

Fundamental modules

Academic information management 111 (AIM 111)

Module credits 4.00

NQF Level 05

Service modules Faculty of Engineering, Built Environment and Information Technology
Faculty of Education
Faculty of Economic and Management Sciences
Faculty of Humanities
Faculty of Law
Faculty of Health Sciences
Faculty of Natural and Agricultural Sciences
Faculty of Theology and Religion

Prerequisites No prerequisites.

Contact time 2 lectures per week

Language of tuition Module is presented in English

Department Information Science

Period of presentation Semester 1

Module content

Find, evaluate, process, manage and present information resources for academic purposes using appropriate technology.

Academic information management 121 (AIM 121)

Module credits 4.00

NQF Level 05

Service modules Faculty of Engineering, Built Environment and Information Technology
Faculty of Education
Faculty of Economic and Management Sciences
Faculty of Humanities
Faculty of Law
Faculty of Health Sciences
Faculty of Natural and Agricultural Sciences
Faculty of Theology and Religion
Faculty of Veterinary Science

Prerequisites No prerequisites.

Contact time 2 lectures per week

Language of tuition Module is presented in English

Department Informatics

Period of presentation Semester 2

Module content

Apply effective search strategies in different technological environments. Demonstrate the ethical and fair use of information resources. Integrate 21st-century communications into the management of academic information.

Language and study skills 110 (LST 110)

Module credits 6.00

NQF Level 05

Service modules Faculty of Natural and Agricultural Sciences
Faculty of Veterinary Science

Prerequisites No prerequisites.

Contact time 2 lectures per week

Language of tuition Module is presented in English

Department Unit for Academic Literacy

Period of presentation Semester 1

Module content

The module aims to equip students with the ability to cope with the reading and writing demands of scientific disciplines.

Academic orientation 108 (UPO 108)

Module credits 0.00

NQF Level 00

Prerequisites No prerequisites.

Language of tuition Module is presented in English

Department Veterinary Science Dean's Office

Period of presentation Year

Core modules

Clinical veterinary nursing 121 (CVN 121)

Module credits 8.00

NQF Level 05

Prerequisites Admission into relevant programme.

Contact time 21 lectures per week for 2 weeks, 6 seminars for 2 weeks

Language of tuition Module is presented in English

Department Production Animal Studies

Period of presentation Semester 2

Module content

Relevant anatomy and physiology, husbandry and handling, hospitalisation, medical nursing, surgical nursing, emergency and critical care, nutrition, common conditions, neonatal care, and anaesthesia of birds; reptiles; small mammals including rabbits, rats and mice, guinea pigs and chinchillas; primates, small carnivores, sugar gliders, hedgehogs and small wildlife. The hand rearing of wild hoof stock. Community-based practical learning takes place off-site to enable students to apply theory and develop clinical skills.

Clinical veterinary nursing 122 (CVN 122)

Module credits	8.00
NQF Level	05
Prerequisites	Admission into relevant programme.
Contact time	1.5 discussion classes per week for 2 weeks, 25.5 lectures per week for 2 weeks
Language of tuition	Module is presented in English
Department	Production Animal Studies
Period of presentation	Semester 2

Module content

Nursing of the patients, of the relevant domestic animals, with diseases of the skin, hooves, teat and udder. Diagnostic procedures related to the skin.

Nursing professional life 100 (LPN 100)

Module credits	15.00
NQF Level	05
Prerequisites	Admission into relevant programme.
Contact time	12 lectures per week for 3.5 weeks, 6 discussion classes per week for 1 week, 6 practicals per week for 1 week, 9 online lectures for 5 weeks
Language of tuition	Module is presented in English
Department	Production Animal Studies
Period of presentation	Year

Module content

Veterinary terminology and the correct usage thereof. Career paths in the veterinary nursing profession. Collegiality and professional associations, veterinary-related laws and professional ethics. Introduction to wellness management. An introduction to establishing, implementing, monitoring and evaluating sustainable quality co-operative partnerships with communities and providing consistent veterinary nursing input in order to improve animal health and welfare within a One Health Context. This theoretical background is applied practically in a community engagement activity. Opportunity to interact with professionals and community partners working in developing communities, important communication skills with people from a wide variety of backgrounds. An introduction to research methodology, including defining a research question, research design, sampling design, methods of data collection, data analysis and interpretation and report writing. Aspects of animal welfare science and animal protection applied to companion animals (cats, dogs, horses) and production animals (cattle, sheep, pigs), and human-animal interactions.

Primary animal health care 110 (PAH 110)

Module credits	18.00
NQF Level	05
Prerequisites	Admission into relevant programme.
Contact time	24 lectures per week for 5 weeks, 4 practicals per week for 5 weeks
Language of tuition	Module is presented in English
Department	Veterinary Tropical Diseases
Period of presentation	Semester 1

Module content

Breeding, feeding, handling and husbandry or care of domestic animals (cats, dogs, horse, cattle, sheep, pigs). Important parasitic and infectious diseases of domestic animals, including relevant immunology, food safety and zoonotic diseases.

Veterinary nursing practice 110 (PVN 110)

Module credits	12.00
NQF Level	05
Prerequisites	Admission into relevant programme.
Contact time	20 lectures per week for 3 weeks, 4 practicals per week for 3 weeks
Language of tuition	Module is presented in English
Department	Paraclinical Sciences
Period of presentation	Semester 1

Module content

Essential nursing practices including disinfection and hospital hygiene, hospitalisation, basic nursing practices, observation and clinical examination of patients and occupational safety aspects. Fundamental pharmacology including medicine administration, storage and handling, drug regulations, dispensing, calculations, pharmacotherapeutics, pharmacokinetics and pharmacodynamics. The pharmacology of organ systems.

Veterinary nursing practice 120 (PVN 120)

Module credits	15.00
NQF Level	05
Prerequisites	Admission into relevant programme.
Contact time	1 discussion class per week, 17 lectures per week for 3.5 weeks, 2,5 practicals per week for 2 weeks
Language of tuition	Module is presented in English
Department	Companion Animal Clinical Studies
Period of presentation	Semester 2

Module content

Diagnostic procedures involving veterinary nurses, including diagnostic imaging, clinical pathology and other laboratory test, sample taking and sample management. Introduction to the general principles of animal physical rehabilitation procedures.

Foundational veterinary sciences 110 (SVF 110)

Module credits	15.00
NQF Level	05
Prerequisites	Admission into relevant programme.
Contact time	1 discussion class per week for 3 weeks, 25 lectures per week, 4 weeks
Language of tuition	Module is presented in English
Department	Anatomy and Physiology
Period of presentation	Semester 1

Module content

Introductory anatomy, histology and physiology of the dog, cat, horse and ruminant. Applied ethology and communication of domestic animals (cats, dogs, horses, cattle, sheep, and pigs).

Foundational veterinary sciences 120 (SVF 120)

Module credits	15.00
NQF Level	05
Prerequisites	Admission into relevant programme.
Contact time	25.5 lectures per week for 4 weeks
Language of tuition	Module is presented in English
Department	Anatomy and Physiology
Period of presentation	Semester 2

Module content

Anatomy and physiology of the organ systems of the dog, cat, horse and ruminant.

Curriculum: Year 2

Minimum credits: 120

Core modules

Clinical veterinary nursing 211 (CVN 211)

Module credits 18.00

NQF Level 06

Prerequisites Admission into relevant programme and Second year academic level.

Contact time 20 lectures per week for 4 weeks, 3 practicals per week over 4 weeks

Language of tuition Module is presented in English

Department Companion Animal Clinical Studies

Period of presentation Semester 1

Module content

Nursing and physical rehabilitation of musculo-skeletal patients of the relevant domestic animals. Diagnostic imaging of the skeleton. Principles of theatre practice.

Clinical veterinary nursing 212 (CVN 212)

Module credits 12.00

NQF Level 06

Prerequisites Admission into relevant programme and Second year academic level.

Contact time 24 lectures per week for 2 weeks, 3 practicals per week over 2 weeks

Language of tuition Module is presented in English

Department Production Animal Studies

Period of presentation Semester 1

Module content

Nursing of patients, of the relevant domestic animals, with dental and gastrointestinal diseases. Diagnostic Imaging of the abdomen. Other diagnostic procedures related to the gastro-intestinal tract.

Clinical veterinary nursing 213 (CVN 213)

Module credits 12.00

NQF Level 06

Prerequisites Admission into relevant programme and Second year academic level.

Contact time 21 lectures per week for 2 weeks, 3 online lectures for 2 weeks, 6 practicals per week for 2 weeks

Language of tuition Module is presented in English

Department Production Animal Studies

Period of presentation Semester 1

Module content

Nursing of patients, of the relevant domestic animals, with reproductive conditions. Care and nursing of neonates. Assisted reproduction technologies.

Clinical veterinary nursing 214 (CVN 214)

Module credits 12.00

NQF Level 06

Prerequisites Admission into relevant programme and Second year academic level.

Contact time 1 discussion class per week over 2 weeks, 1.5 practicals per week for 2 weeks, 16 lectures per week for 2 weeks

Language of tuition Module is presented in English

Department Companion Animal Clinical Studies

Period of presentation Semester 1

Module content

Nursing of the patient with endocrine disease, of the relevant domestic animals. Nursing of urinary and renal patients. Diagnostic procedures related to the endocrine system, bladder and kidneys.

Clinical veterinary nursing 221 (CVN 221)

Module credits 12.00

NQF Level 06

Prerequisites Admission into relevant programme and Second year academic level.

Contact time 1.5 online lecture for 1 week, 22 lectures per week for 2 weeks

Language of tuition Module is presented in English

Department Companion Animal Clinical Studies

Period of presentation Semester 2

Module content

Nursing of ophthalmological and neurological patients, of the relevant domestic animals. Diagnostic imaging of the skull and spine. Diagnostic procedures related to the eye and nervous system.

Clinical veterinary nursing 222 (CVN 222)

Module credits 18.00

NQF Level 06

Prerequisites Admission into relevant programme and Second year academic level.

Contact time 1.5 online lecture for 4 weeks, 19 lectures per week for 4 weeks, 2 practicals per week for 4 weeks

Language of tuition Module is presented in English

Department Companion Animal Clinical Studies

Period of presentation Semester 2

Module content

Nursing of cardiac and respiratory patients, of the relevant domestic animals. Anaesthesiology of the veterinary patient. Diagnostic imaging of the thorax. Other diagnostic procedures related to the cardio-vascular and respiratory system. Physical animal rehabilitation related to the circulatory and respiratory systems.

Clinical veterinary nursing 223 (CVN 223)

Module credits 18.00

NQF Level 06

Prerequisites Admission into relevant programme and Second year academic level.

Contact time 1.25 online lecture, 4 weeks, 1.25 practicals per week for 4 weeks, 20 lectures per week for 4 weeks

Language of tuition Module is presented in English

Department Companion Animal Clinical Studies

Period of presentation Semester 2

Module content

Critical care of patients, of the relevant domestic animals. Nursing of the oncology patient. Nursing of a patient with multi-systemic disease. Triage and emergencies.

Nursing professional life 210 (LPN 210)

Module credits 12.00

NQF Level 06

Prerequisites Admission into relevant programme and Second year academic level.

Contact time 1.5 other contact session per week, 23 lectures per week for 2 weeks, 3 discussion classes per week over 2 weeks

Language of tuition Module is presented in English

Department Veterinary Tropical Diseases

Period of presentation Semester 1

Module content

Communication for veterinary nurses. Self-awareness, self-management, social awareness, professionalism, gender based violence and relationship management. Cultural diversity. Information management. Practice management for veterinary nurses, including relevant marketing, promotion and sales, human resources management work place discipline, rewards for good work performance and application of the Labour Law in the work place, strategic client service and management, compassion fatigue and its components. Continuation of a portfolio as evidence of learning.

Veterinary nursing practice 200 (PVN 200)

Module credits	6.00
NQF Level	06
Prerequisites	Admission into relevant programme and Second year academic level.
Contact time	7.5 clinical practicals per week for 12 weeks, Yes
Language of tuition	Module is presented in English
Department	Companion Animal Clinical Studies
Period of presentation	Year

Module content

Experiential learning: a practical application of the theoretical aspects of veterinary nursing practice. Experiential learning and experience will be gained by means of the Onderstepoort Skills Laboratory and limited exposure to clinic rotations in the Onderstepoort Veterinary Academic Hospital.

Curriculum: Final year

Minimum credits: 148

Core modules

Nursing professional life 300 (LPN 300)

Module credits 8.00

NQF Level 07

Prerequisites Admission into relevant programme and Third year academic level.

Contact time 2 weeks of guided self-study

Language of tuition Module is presented in English

Department Companion Animal Clinical Studies

Period of presentation Year

Module content

A portfolio as evidence of learning is required to show that throughout the three-year degree programme, graduates developed the skills and competencies required to enable the veterinary nurse to be a consummate professional, capable of dealing with the diverse challenges of veterinary nursing professional and everyday life.

Veterinary nursing practice 300 (PVN 300)

Module credits 140.00

NQF Level 07

Prerequisites Admission into relevant programme and Third year academic level.

Contact time 60 clinical practicals per week for 35 weeks, Yes

Language of tuition Module is presented in English

Department Companion Animal Clinical Studies

Period of presentation Year

Module content

Experiential learning: a practical application of the theoretical aspects of veterinary nursing practice covered in the curriculum of the BVetNurs programme. Topics include medical nursing, surgical nursing, intensive care nursing, reproduction, animal physical rehabilitation, diagnostic imaging, ophthalmology, dentistry, theatre practice, anaesthesiology and veterinary nursing professional life skills. Community-based practical sessions provide an opportunity to develop clinical and life skills. Domestic animals exposed to include cats, dogs, cattle, small stock, horses and exotic animals/wildlife. The emphasis of practical exposure is on attaining of the Day One Competencies for graduating veterinary nursing professionals.

General Academic Regulations and Student Rules

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and

registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations. The G Regulations are updated annually and may be amended after the publication of this information.

Regulations, degree requirements and information

The faculty regulations, information on and requirements for the degrees published here are subject to change and may be amended after the publication of this information.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQSF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
