

## University of Pretoria Yearbook 2016

## Minerals processing 411 (NMP 411)

Qualification	Undergraduate
Faculty	Faculty of Engineering, Built Environment and Information Technology
Module credits	16.00
Programmes	BEng Metallurgical Engineering
	BEng Metallurgical Engineering Engage
Prerequisites	(NMP 310)
Contact time	3 lectures per week, 1 tutorial per week, 2 practicals per week
Language of tuition	English
Academic organisation	Materials Science and Metallur
Period of presentation	Semester 1
Prerequisites Contact time Language of tuition Academic organisation	BEng Metallurgical Engineering Engage (NMP 310) 3 lectures per week, 1 tutorial per week, 2 practicals per week English Materials Science and Metallur

## Module content

The sizing, application and efficiency determination of the most commonly used unit operations covering crushing, screening, classification, milling, gravity concentration, dense medium separation, magnetic separation and thickening.

The information published here is subject to change and may be amended after the publication of this information. The **General Regulations (G Regulations)** apply to all faculties of the University of Pretoria. It is expected of students to familiarise themselves well with these regulations as well as with the information contained in the **General Rules** section. Ignorance concerning these regulations and rules will not be accepted as an excuse for any transgression.
