## Animation theory and practice 701 (IMY 701)

|                               |                                                                                      |
|-------------------------------|--------------------------------------------------------------------------------------|
| <b>Qualification</b>          | Postgraduate                                                                         |
| <b>Faculty</b>                | <a href="#">Faculty of Engineering, Built Environment and Information Technology</a> |
| <b>Module credits</b>         | 15.00                                                                                |
| <b>Programmes</b>             | <a href="#">PGDip Digital Innovation</a>                                             |
| <b>Service modules</b>        | Faculty of Economic and Management Sciences                                          |
| <b>Language of tuition</b>    | Module is presented in English                                                       |
| <b>Academic organisation</b>  | Information Science                                                                  |
| <b>Period of presentation</b> | Semester 1                                                                           |

### Module content

This module provides an overview of the historic and current principles and practice of natural motion animation. Different animation techniques are covered, such as stop motion, traditional animation, and 3D animation. The student receives an opportunity to create an animated short film using a technique of their choice.
