

## University of Pretoria Yearbook 2018

# BEngHons Water Resources Engineering (12240162)

Minimum duration of study

1 year

**Total credits** 

128

#### Programme information

The curriculum is determined in consultation with the relevant heads of departments. A student is required to pass modules to the value of at least 128 credits.

The degree is awarded on the basis of examinations only.

#### Admission requirements

Subject to the stipulations of Reg. G.1.3 and G.54, a BEng degree or equivalent qualification is required for admission.

## Examinations and pass requirements

- i. The examination in each module for which a student is registered, takes place during the normal examination period after the conclusion of lectures (i.e. October/November or May/June).
- ii. A student registered for the honours degree must complete his or her studies within two years (full-time), or within three years (part-time) after first registration for the degree: Provided that the Dean, on recommendation of the relevant head of department, may approve a stipulated limited extension of this period.
- iii. A student must obtain at least 50% in an examination for each module where no semester or year mark is required. A module may only be repeated once.
- iv. In modules where semester or year marks are awarded, a minimum examination mark of 40% and a final mark of 50% is required.
- v. No supplementary or special examinations are granted at postgraduate level.

#### Pass with distinction

A student passes with distinction if he or she obtains a weighted average of at least 75% in the first 128 credits for which he or she has registered (excluding modules which were discontinued timeously). The degree is not awarded with distinction if a student fails any one module (excluding modules which were discontinued timeously).

## Curriculum: Final year

Minimum credits: 128

SSC 780 compulsory module / verpligte module

#### **Core modules**

Civil research 780 (SSC 780) - Credits: 32.00

#### **Elective modules**

Flood hydrology 792 (SHC 792) - Credits: 24.00 Pipe flow 795 (SHC 795) - Credits: 24.00

Applied statistical methods and optimisation 798 (SHC 798) - Credits: 24.00

Numerical methods and finite element applications for Civil Engineers 790 (SIK 790) - Credits: 24.00

Infrastructure management 790 (SSI 790) - Credits: 24.00
