
University of Pretoria Yearbook 2019

BScHons Food Science (02240602)

Minimum duration of study 1 year

Total credits 135

Programme information

Renewal of registration

- i. Subject to exceptions approved by the Dean, on the recommendation of the relevant head of department, and in the case of distance education where the Dean formulates the stipulations that will apply, a student may not sit for an examination for the honours degree more than twice in the same module.
- ii. A student for an honours degree must complete his or her study, in the case of full-time students, within two years and, in the case of after-hours students, within three years of first registering for the degree and, in the case of distance education students, within the period stipulated by the Dean. Under special circumstances, the Dean, on the recommendation of the relevant head of department, may give approval for a limited extension of this period.

In calculating marks, General Regulation G.12.2 applies.

Apart from the prescribed coursework, a research project is an integral part of the study.

Admission requirements

A BSc in Food Science degree with a pass mark of at least 60%. A candidate with another, applicable academic background can be admitted to the programme on passing a preliminary examination and/or on completion of certain prescribed modules aimed at supplementing lacking background knowledge.

Other programme-specific information

Pass with distinction

The BScHons degree is awarded with distinction to a candidate who obtains a weighted average of at least 75% in all the prescribed modules and a minimum of 65% in any one module.

Curriculum: Final year

Minimum credits: 135

Minimum credits: 135

Core credits: 105

Elective credits 30

Core modules

Research methodology and seminars 700 (FST 700)

Module credits	15.00
Prerequisites	No prerequisites.
Contact time	1 day seminar in semester 2, 1 workshop of 5 days in semester 1
Language of tuition	Module is presented in English
Department	Consumer and Food Sciences
Period of presentation	Year

Module content

Lectures and assignments: Research methodology. Literature study and seminar presentations on topics in Food Science and/or Technology. The candidate must also pass an oral examination at the end of the module.

Sensory evaluation 712 (FST 712)

Module credits	10.00
Prerequisites	No prerequisites.
Contact time	12 discussion classes, 6 practicals per semester
Language of tuition	Module is presented in English
Department	Consumer and Food Sciences
Period of presentation	Semester 1

Module content

Lectures: principles and applications of sensory evaluation. Types of panels, tests and test conditions and their functions. Selection and training of panellists for descriptive sensory evaluation. Instrumental sensory quality measurements. Statistical analysis and interpretation of data.

Practicals: Practical aspects and execution of sensory evaluation techniques, analysis and interpretation of data. Instrumental sensory quality measurements.

Production development and quality management 713 (FST 713)

Module credits	25.00
Prerequisites	No prerequisites.

Contact time 15 discussion classes, 6 practicals per semester

Language of tuition Module is presented in English

Department Consumer and Food Sciences

Period of presentation Semester 1

Module content

Lectures: principles involved and steps that are followed to develop new food products that are safe, tasty, nutritious and cost effective. Application of the theory of food product development. Quality management systems with specific reference to Good Manufacturing Practices, HACCP and ISO 9000. National and international standards, Codex Alimentarius, FDA. Application of food legislation. Food packaging. Practical: A product development project will be planned, conducted and presented. Application and implementation of HACCP.

Advanced food science 720 (FST 720)

Module credits 15.00

Prerequisites No prerequisites.

Contact time 12 discussion classes

Language of tuition Module is presented in English

Department Consumer and Food Sciences

Period of presentation Year

Module content

Discussion classes in advanced level food chemistry, food microbiology, food engineering, food processing and nutrition. Problem solving and literature discussion.

Research project 763 (FST 763)

Module credits 40.00

Prerequisites No prerequisites.

Language of tuition Module is presented in English

Department Consumer and Food Sciences

Period of presentation Year

Module content

A short research project on an approved topic in food science and/or technology is planned, executed and presented in the form of a written report.
