

University of Pretoria Yearbook 2022

Electromagnetism 310 (EMZ 310)

Qualification	Undergraduate
Faculty	Faculty of Engineering, Built Environment and Information Technology
Module credits	16.00
NQF Level	07
Programmes	BEng (Electrical Engineering) BEng (Electrical Engineering) ENGAGE BEng (Electronic Engineering) BEng (Electronic Engineering) ENGAGE
Prerequisites	WTW 238 GS, WTW 263 GS, EIR 211/221 GS
Contact time	1 practical per week, 1 tutorial per week, 3 lectures per week
Language of tuition	Module is presented in English
Department	Electrical, Electronic and Computer Engineering
Period of presentation	Semester 1

Module content

This module introduces transmission lines (wave propagation, lossless line input impedance, power flow), electrostatics (Maxwell's equations, charge and current distributions, Coulomb's law and Gauss's law, electric potential, electric properties of materials, electric boundary conditions, capacitance, electrostatic potential energy), magnetostatics (Biot-Savart law and Ampère's law, vector magnetic potential, magnetic properties of materials, magnetic boundary conditions, inductance, magnetic energy), time-varying fields (Faraday's law, stationary loop in varying field, moving conductor in static field, moving conductor in varying field, displacement current, electromagnetic boundary conditions, charge-current continuity, electromagnetic potentials), plane-wave propagation (time harmonic fields, wave propagation in lossless media, polarisation, wave propagation in lossy media, power density), and wave reflection and transmission (normal incidence, Snell's law, oblique incidence).

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not

be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
