

# University of Pretoria Yearbook 2022

## Decision modelling and machine learning 712 (GIA 712)

<b>Qualification</b>	Postgraduate
<b>Faculty</b>	<a href="#">Gordon Institute of Business Science</a>
<b>Module credits</b>	10.00
<b>NQF Level</b>	08
<b>Programmes</b>	<a href="#">PGDip (Business Administration) Full-time</a> <a href="#">PGDip (Business Administration) Part-time</a> <a href="#">PGDip (General Management)</a>
<b>Prerequisites</b>	No prerequisite.
<b>Contact time</b>	35 contact hours per 3 week-cycle
<b>Department</b>	Gordon Institute of Business Science
<b>Period of presentation</b>	Semester 1 or Semester 2

### Module content

This module exposes students to machine and statistical learning algorithms that can be used to manipulate big data, identify trends from the data, modelling trends for prediction purposes as well as modelling for the detection of hidden knowledge. Student will learn to identify settings in which models can be used effectively and apply modelling concepts in practical situations, including visualisation – the encoding of information, such as patterns, into visual objects.

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
