Module content

The aim of this module is to equip students to explore the concepts, theories, patterns and recent cases of the four stages of corporate sickness: decline, distress, insolvency and bankruptcy. It examines contemporary product, production, accounting, financial, marketing, alliance and joint venture-based turnaround strategies. The module provides students with a perspective on identifying and remedying turnaround business situations, that is, established businesses experiencing operational, financial and managerial difficulties. Students learn, from the viewpoint of a general manager, how to distinguish between "troubled" and "crisis" companies and how to use both qualitative and quantitative tools to effect solutions.

The regulations and rules for the degrees published here are subject to change and may be amended after the publication of this information.

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations.
