Module content

The module develops language-editing skills, using a variety of texts from different fields and of varying levels of complexity. Students edit texts to produce grammatical, idiomatic and logical English texts, taking into account peculiarities of South African English and local needs. They adjust work to meet the needs of a specified target audience. The principles of plain language editing are applied, in addition to strategies to overcome textual complexities for given target audiences, ranging from academics to neo-literates. A special focus is the editing of translations in the SA context.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
