

University of Pretoria Yearbook 2024

PGDip in Business Administration *General Management* (07220210)

Department Gordon Institute of Business Science

Minimum duration of study 1 year

Total credits 120

NQF level 08

Admission requirements

1. Relevant bachelor's (or equivalent) degree
2. An admissions examination may be required

Other programme-specific information

Refer to General Academic Regulations G16-G29.

Refer to the GIBS student guidelines and regulations.

The Dean may authorise matters not provided for in the General Academic Regulations or in the GIBS regulations

Examinations and pass requirements

1. The minimum pass mark for each prescribed module is 50%., provided that a subminimum of 45% has been obtained in the examination or an examined component
2. A candidate who has failed more than two modules may not continue with his/her studies for the diploma, except with the approval of the Dean.

Refer to the GIBS student guidelines and regulations.

Curriculum: Final year

Minimum credits: 120

Core modules

Applied business project 751 (GIA 751)

Module credits 20.00

NQF Level 08

Prerequisites No prerequisites.

Contact time 28 contact hours per 3 week cycle

Language of tuition Module is presented in English

Department Gordon Institute of Business Science

Period of presentation Semester 1 or Semester 2

Module content

This module is designed to enable students to analyse business problems, derive appropriate solutions, and communicate them effectively. Through classroom instruction and individual feedback, students learn to analyse a business case, generate and review solutions, and prepare a clear, logical written summary of their analysis. Students analyse the problem, conduct the appropriate research in the industry, apply the models and techniques covered, and prepare a consulting report for presentation to management and faculty.

Business communication for impact 753 (GIA 753)

Module credits 10.00

NQF Level 08

Prerequisites No prerequisites.

Contact time 28 contact hours per 3 week cycle

Language of tuition Module is presented in English

Department Gordon Institute of Business Science

Period of presentation Semester 1 or Semester 2

Module content

This module is designed to enable students to communicate effectively and appropriately in a variety of business and academic settings. Through instruction and individual feedback, students will learn skills to improve their academic writing, and consider how to improve the quality of their writing in various organisational contexts. This module focuses on both verbal, nonverbal and written communication as well as the contexts of one-on-one, group and technology-based communication. Students will also learn to provide and receive feedback successfully, which is a critical skill for personal and organisational success. The module considers the development of these skills in both a face-to-face and virtual environment. Through various activities, the core cognitive skills that are targeted for development in this module are analysing, evaluating and synthesising.

Research and statistics 785 (GIA 785)

Module credits	10.00
NQF Level	08
Prerequisites	No prerequisites.
Contact time	35 contact hours per 3 week-cycle
Language of tuition	Module is presented in English
Department	Gordon Institute of Business Science
Period of presentation	Semester 1 or Semester 2

Module content

This module examines statistical tools used in business decision-making. Statistical methods will be introduced in a non-technical manner and developed in business contexts. Topics will include understanding differences, predictions and associations when using statistical analysis for business decision-making. These techniques will underpin the use of univariate and multivariate techniques. Statistical computer packages play a major supporting role in statistical applications, and frequently-encountered spreadsheet and software packages will be utilised during the course of the module. You will learn how to interpret the information contained in management data, and to define and analyse management problems quantitatively. You will develop an intuitive understanding of statistical techniques through explanations of methods and interpretation of real business problems. Ultimately, if you need to consult experts in this area, you will be better able to select, evaluate and use their services.

Financial accounting and management 780 (GIE 780)

Module credits	10.00
NQF Level	08
Prerequisites	No prerequisites.
Contact time	Twenty four hours
Language of tuition	Module is presented in English
Department	Gordon Institute of Business Science
Period of presentation	Semester 1 or Semester 2

Module content

This module is designed to equip participants with the necessary skills to analyse and interpret financial information. An overview of the preparation of simple financial statements serves as the basis for understanding the uses and limitations of the financial reports that companies prepare for shareholders and other external agencies. Topics dealt with in-depth include the contents of financial reports, ratio analysis and cash flow analysis, in addition to specific techniques developed for prediction of financial failure and vulnerability to takeover. Actual financial statements are analysed, and participants are expected to be familiar with real cases in the current financial press. You will become familiar with how financial statements such as balance sheets, income statements, and cash flow statements are structured. Various methods of critically evaluating them in order to make conclusions about the company's financial strength or weaknesses, and future possibilities such as financial failure or the probability of takeover will be discussed.

Microeconomics: Prices and markets 781 (GIE 781)

Module credits	10.00
NQF Level	08
Prerequisites	No prerequisites.
Contact time	Twenty four hours
Language of tuition	Module is presented in English
Department	Gordon Institute of Business Science
Period of presentation	Semester 1 or Semester 2

Module content

In this module students will be introduced to micro-economic theory and its application to real business situations. The aim of the course is to establish a rigorous appreciation for the main drivers of any business and to show how different variables will impact the company bottom line. The course begins by examining consumer demand. Students will examine why consumers act in a particular way, how they may react to market changes and what strategies a startup company or corporate may undertake to maximise its revenue in both the short and the long term. The course then shifts to focus on the production decisions of a company and examines in detail the different types of costs within an organisation, what variables positively and negatively affect these costs and how these costs can be managed to maximise profits and profitability. Different market structures are analysed to assist students in placing their firm and sector in an appropriate market structure thus providing useful insight into options regarding inter firm rivalry, firm interdependence and strategies to deal with competition from similar firms. The course is designed to give the student a set of tools, models and causal chains which will help them make more informed strategic decisions regarding: the pricing of their goods, their cost management, their competition strategies and options to maximise profitability.

Human resources strategy 782 (GIE 782)

Module credits	10.00
NQF Level	08
Prerequisites	No prerequisites.
Contact time	Twenty four hours
Language of tuition	Module is presented in English
Department	Gordon Institute of Business Science
Period of presentation	Semester 1 or Semester 2

Module content

This module explains both how human resource systems should support the achievement of strategic objectives in context, and how line managers should manage people to achieve those objectives. Module topics include the management of strategic human resources (aligning HR and business strategy, succession planning, and the war for talent), management of HR-firm infrastructure, training and development, managing employee contributions (performance management and industrial relations), and integrating HR strategies and business strategies. The role of the line manager in managing performance will be considered, and underpinned by an overview of the causes of human behaviour in organisations. The module will include case studies to illustrate unique problems and approaches to HR strategy. You will learn the strategic value of effective management of human resources and how alternative HR strategies deliver different results.

Human behaviour and performance 783 (GIE 783)

Module credits	10.00
NQF Level	08
Prerequisites	No prerequisites.
Contact time	Twenty four hours
Language of tuition	Module is presented in English
Department	Gordon Institute of Business Science
Period of presentation	Semester 1 or Semester 2

Module content

In this module students will be introduced to the dynamics of human behaviour in South African society and organisations. It will explore the dynamics of interpersonal relationships, the diversity of South African culture, the impact of the political and economic history of South Africa on human behaviour, the current and future dynamics of human interaction and processes that affect organisations, markets and society. Students will explore issues related to race, ethnicity, gender and economic status and their impact on the economy and society as a whole. Building on this understanding, students will examine effective ways of attracting, retaining and managing talented individuals when building or growing a new company in a South African context.

Marketing 784 (GIE 784)

Module credits	10.00
NQF Level	08
Prerequisites	No prerequisites.
Contact time	Twenty four hours
Language of tuition	Module is presented in English
Department	Gordon Institute of Business Science
Period of presentation	Semester 1 or Semester 2

Module content

This module teaches a systematic approach to marketing decision making in order to match continuously changing market opportunities with the internal resources of the company in terms of production capacity, people and finance. Key topics include understanding the market and the customers, analysing marketing opportunities, developing marketing strategies, planning marketing programmes, and assessing new directions for marketing, particularly the impact of e-business. By critically examining an extensive theoretical base of marketing literature, and reviewing local and international case studies, you will develop the skills and insights required to formulate and evaluate an effective marketing strategy within the context of overall corporate objectives. You will evaluate the changing role of marketing in the knowledge economy, and how marketing interfaces with other functional areas within the organisation.

Macroeconomics: National competitiveness 785 (GIE 785)

Module credits	10.00
NQF Level	08
Prerequisites	No prerequisites.
Contact time	Twenty four hours
Language of tuition	Module is presented in English
Department	Gordon Institute of Business Science
Period of presentation	Semester 1 or Semester 2

Module content

In this module students will examine the macroeconomic and socio-political environment in which business operates. Its aims are, firstly, to demonstrate the multi-faceted way in which global economic trends and domestic socio-political strategies impact existing and startup businesses in the private sector. Secondly, the module aims to provide participants with an insight into, and understanding of, the major causal relationships encountered in the macroeconomic equation. The key topics include the political/economic cycle, a concise profile of the South African economy, aggregate supply analysis, aggregate demand analysis, public sector economics, international economics, globalisation and international competitiveness, monetary economics, and economic indicators (including the business cycle, inflation and unemployment). This course will provide students with the conceptual frameworks and analytical tools needed to understand and predict the impact of macroeconomics on their businesses. The focus on the South African economy within the context of the global environment and the resultant challenges for business will provide students with an important perspective on doing business in South Africa in the future

Operations management 786 (GIE 786)

Module credits	10.00
NQF Level	08
Prerequisites	No prerequisites.
Contact time	28 contact hours per 3 week cycle
Language of tuition	Module is presented in English
Department	Gordon Institute of Business Science

Period of presentation Semester 1 or Semester 2

Module content

This module examines how an organisation's structures, systems and processes contribute to its competitive position. This involves management of the processes whereby inputs such as labour, materials and equipment are converted to products or services that meet customers' needs at an acceptable cost. Improving performance cross-functionally and across the value chain is an important focus. Topics include functional versus corporate operations strategy, operations' reactive role, service-delivery systems design, process choice, quality management and improving operations, time and productivity, aligning operations to markets, and the impact of technology developments on the service-delivery system. You will be able to analyse an operating system's efficiency in terms of process design, capacity and quality of service, and make recommendations to improve its design or operation. You will have a greater appreciation of the need to manage integrated processes across the value chain to achieve business success.

Corporate finance techniques 788 (GIE 788)

Module credits 10.00

NQF Level 08

Prerequisites Financial accounting and management.

Contact time 35 blended contact hours

Language of tuition Module is presented in English

Department Gordon Institute of Business Science

Period of presentation Semester 2

Module content

Corporate finance techniques encompass financial skills that every general manager requires. The course includes financial calculations; the use of financial statements; equity versus debt financing; distribution mechanisms; capital allocation (investment evaluation and rates of return).

General Academic Regulations and Student Rules

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations. The G Regulations are updated annually and may be amended after the publication of this information.

Regulations, degree requirements and information

The faculty regulations, information on and requirements for the degrees published here are subject to change and may be amended after the publication of this information.

University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQSF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
