

# University of Pretoria Yearbook 2025

## MSc (Mathematical Statistics) *eScience* (Coursework) (02250197)

**Department** Statistics

**Minimum duration of study** 2 years

**Total credits** 180

**NQF level** 09

### Programme information

The curriculum for this degree programme comprises 180 credits of coursework and a research component. One of the key features of the curriculum is a capstone project that runs parallel with coursework modules in the first year of study. During the capstone project, students will go through the entire cycles of solving a real-world data science problem, collecting and processing real-world data, designing methods to solve the problem, and implementing a solution. The capstone project and coursework prepare the student for the mini-dissertation problem supervised by an expert.

### Admission requirements

1. Honours degree in either Statistics, Mathematics, Computer Science, Physics, or related fields
2. Demonstrable knowledge of basic principles of probability and statistics, computing, calculus and linear algebra **or** an admission examination may be required
3. A weighted average of at least 65% at final-year level, **but** students with a weighted average of 70% or more will receive preference

### Promotion to next study year

The progress of all master's candidates is monitored biannually by the supervisor and the postgraduate coordinator. A candidate's study may be terminated if the progress is unsatisfactory or if the candidate is unable to finish his/her studies during the prescribed period.

Subject to exceptions approved by the Dean, on recommendation of the head of department, and where applicable, a student may not enter for the master's examination in the same module more than twice.

---

## Curriculum: Year 1

Choose 4 modules to the value of 60 credits from the list of electives.

### Core modules

Research methods and capstone project in data science 801 (NEP 801) - Credits: 15.00

Data privacy and ethics 802 (NEP 802) - Credits: 15.00

### Elective modules

Adaptive computation and machine learning 803 (NEP 803) - Credits: 15.00

Data visualisation and exploration 804 (NEP 804) - Credits: 15.00

Large-scale computing systems and scientific computing 805 (NEP 805) - Credits: 15.00

Mathematical foundations of data science 806 (NEP 806) - Credits: 15.00

Special topics in data science 807 (NEP 807) - Credits: 15.00

Statistical foundations of data science 808 (NEP 808) - Credits: 15.00

Large-scale optimisation for data science 809 (NEP 809) - Credits: 15.00

---

## Curriculum: Final year

### Fundamental modules

Mini-dissertation: eScience 800 (NEP 800) - Credits: 90.00

---

#### General Academic Regulations and Student Rules

The [General Academic Regulations \(G Regulations\)](#) and [General Student Rules](#) apply to all faculties and registered students of the University, as well as all prospective students who have accepted an offer of a place at the University of Pretoria. On registering for a programme, the student bears the responsibility of ensuring that they familiarise themselves with the General Academic Regulations applicable to their registration, as well as the relevant faculty-specific and programme-specific regulations and information as stipulated in the relevant yearbook. Ignorance concerning these regulations will not be accepted as an excuse for any transgression, or basis for an exception to any of the aforementioned regulations. The G Regulations are updated annually and may be amended after the publication of this information.

#### Regulations, degree requirements and information

The faculty regulations, information on and requirements for the degrees published here are subject to change and may be amended after the publication of this information.

#### University of Pretoria Programme Qualification Mix (PQM) verification project

The higher education sector has undergone an extensive alignment to the Higher Education Qualification Sub-Framework (HEQSF) across all institutions in South Africa. In order to comply with the HEQSF, all institutions are legally required to participate in a national initiative led by regulatory bodies such as the Department of Higher Education and Training (DHET), the Council on Higher Education (CHE), and the South African Qualifications Authority (SAQA). The University of Pretoria is presently engaged in an ongoing effort to align its qualifications and programmes with the HEQSF criteria. Current and prospective students should take note that changes to UP qualification and programme names, may occur as a result of the HEQSF initiative. Students are advised to contact their faculties if they have any questions.
